PROFESSIONAL SUMMARY

Site & Technical Office Architect with 8+ years of experience in site supervision, technical office operations, shop drawings and finishing works across major commercial, administrative, residential, hospitality, tourism, cultural and mixed-use projects. Strong experience in supervising interior and exterior finishing and fit-out works, coordinating subcontractors and labor, inspecting completed work, ensuring compliance with approved drawings, specifications and quality standards, and closing snag items through handover. Technical office expertise includes preparing and reviewing shop drawings, coordination drawings, RFIs, material submittals, quantity take-offs, BOQs and as-built drawings. Experienced in coordinating with consultants, contractors, subcontractors, suppliers and multidisciplinary teams to resolve technical and site issues, ensure compliance with approved documents, and support project schedules and quality requirements. Registered with the Saudi Council of Engineers.

KEY STRENGTHS

- Site Supervision & Execution of All Finishing Works
- Subcontractor, Labor & Work-Sequence Coordination
- Finishing Inspections & Execution Quality Review
- QA/QC Inspections, Snagging & Handover
- Site Coordination with Consultants, Contractors & Suppliers
- Interior Fit-Out & Decoration Coordination
- Technical Office & Shop Drawings
- Coordination Drawings & Finishing Details
- RFIs, Material Submittals & As-Built Drawings
- WIRs, IRs, MIRs & Technical Documentation
- BOQs, Quantity Take-Offs & Cost Estimation
- Revit & BIM Coordination with MEP / Structural Teams

WORK EXPERIENCE

Site Architect | Deyar Engineering and Contracting Company Aug 2024 - Feb 2026

- Supervised the daily execution of architectural finishing works in accordance with approved drawings, specifications and materials.
- Monitored subcontractors and labor, coordinated work sequences and maintained available work fronts to support the project schedule.
- Inspected finishing items, including flooring, walls, ceilings, gypsum board, painting, doors and wet areas, before consultant inspection.
- Coordinated with consultant, MEP and structural teams to resolve site interfaces, maintain quality, close snags and support handover.

Technical Office & Interior Finishing Engineer | Sharm Hills Real Estate Investment Company – Egypt May 2022 - Mar 2024

- Prepared and reviewed architectural drawings, fit-out drawings, finishing details and modifications for residential and resort projects.
- Supervised interior and exterior finishing works including flooring, ceilings, gypsum board, wall finishes, painting, doors and wet areas.
- Coordinated shop drawings, material submittals, samples, quantity take-offs and technical documentation with contractors and suppliers.
- Supported snagging, as-built updates, handover documentation and technical solutions for finishing and decoration packages.

Technical Office | Deyar Engineering and Contracting Company Mar 2018 - Aug 2022

- Led technical office and site coordination for residential and mixed-use projects, aligning drawings, materials, execution and approvals.
- Prepared shop drawings, coordination drawings, fit-out details, construction details and as-built drawings.
- Developed and coordinated Revit models across architectural, structural and MEP disciplines.
- Prepared RFIs, material submittals, WIRs, IRs, MIRs, quantity take-offs, BOQs and technical progress updates.
- Supervised finishing and fit-out works, resolved site conflicts, conducted QA/QC inspections, snagging and handover activities.

Architectural Drafting & Site Support | Freelance Mar 2015 - May 2018

- Prepared architectural drawings, design modifications and construction details, and supported site follow-up and technical coordination.

Architectural Site Training | Arab Contractors Company During University Studies

- Completed practical training in project execution, site coordination, quality follow-up and handover procedures.
